

Villa House - Inventory

The Villa House is a superb Georgian Villa, located facing the coast yet set back from the road. Superb sea views are to be experienced from many of the rooms, towards the islands beyond (Gigha, Islay, Jura). The interior is decorated in a cosy, yet light and comfortable décor and is truly a lovely house in which to stay. Floors are mainly carpeted in pale cream, with original tile flooring in the porch and kitchen. Original features remain throughout, including stained glass windows, servants 'call' bells, wood panelling and much more. Beds are fully made up using feather or synthetic duvets and pillows (please specify non-feather if preferred)

mirror, storage
toilet brush, loo roll holder
bathmat, towel warmer

Exterior: gravel driveway leads from service road, to parking areas to front/side of Villa. Gardens surround on three sides, mainly laid to lawn with hedges and borders and a stream bordering the southerly edge of the gardens. There are trees to the rear with a steep upward bank beyond. Two picnic tables lie on the grass to the front to take advantage of the fantastic sea views. A childrens play area is located in the walled garden, just a 5-10 minute walk through the estate, up the main driveway. The beach is a 10 minute walk, a little way along the service road, crossing the main road and down the farm track.

Pets: Dogs are NOT permitted to stay inside the Villa House. We have two cottages on the estate allocated as 'pet-friendly' (Dolls Housess)
If you require further information about the kennel facilities we have, please do not hesitate to ask.
